## INDOOR ARCHERY LEAGUE

### What is the Nanaimo Fish and Game Indoor Archery League?

The League is a fun way to participate in indoor target archery at our club. The rules are very informal and scoring and play are self-regulated. The rules are intended to make playing convenient and fun for all participants. It provides a great chance to track your progress through the indoor season and provide friendly relaxed competition with other archers.

### Participant Information

#### Who can participate?

Any member of the Nanaimo Fish and Game can participate.

#### How can I register?

Archers can register by providing their email contact information, their intention to participate, and the category they will shoot in, to the **Shoot Coordinator** at [bobob@telus.net](mailto:bobob@telus.net).

Categories are Compound, Recurve sighted, barebow, and longbow. Youth (under 15 years old), Compound, Recurve sighted, barebow, and longbow.

#### When is the Shoot?

The shoot runs from Oct 30<sup>th</sup> 2023 until April 28<sup>th</sup> 2024. It will be split into 2 parts with scores being reset in the second half. **Part 1** Oct 30 until Jan 28<sup>th</sup> (13 weeks) and **Part 2** Jan 29<sup>th</sup> until April 28<sup>th</sup> (13 weeks).

There is no designated time for shooting League scores. Shooters can shoot anytime within the week. One of the goals of the League is to give archers a taste of what tournament archery is all about. It is encouraged that archers shoot in groups and try and simulate tournament conditions.

Shooters can submit one score each week, Weeks run from Monday until Sunday. Scores are submitted to the **Shoot Coordinator** [bobob@telus.net](mailto:bobob@telus.net). It is the responsibility of the shooters to submit the scores. It is OK if one person's email contains scores for multiple people. Submitting the final score rather than the score card is all that is required.

Archers can submit any score they have shot at the range throughout the week. Again, it is strongly suggested that when possible, archers submit scores shot in situations that simulate shooting in a tournament environment, e.g with a group, a start end agreed beforehand etc.

### What are the rules?

The round is based on the Canadian 300 Round.

30 arrows, 10 ends of 3 arrows, shot consequently with a predetermined start end.

Adults shoot on 40 cm targets (either full face or three spot, archer's choice).

For compound shooters, only the inner ring, Compound 10-ring, shall score 10, the rest of the yellow scoring zone shall score 9.

Youth shoot on a 60 cm target.

No bows over 60 # draw weight are allowed on the indoor range.

Arrows breaking the plane of a scoring line are scored at the higher level.

There are no judges involved so arrow calls are by the majority of the archers present, in the case of a tie the higher score prevails.

### Where/when can I see my scores?

Each scoring week runs from the Monday to the Sunday.

The previous week's scores and tracking will be emailed to participants on Monday.

The scores will be posted at the range.

### Who Wins

Everyone! The tracking sheet will show the highest score for each category for each week. It will also show the average of the 5 highest scores shot within each half the event.
